

PATHWAYS TO MEDICINE

Pre-Med Workshop for Teens: Suture and Surgical Lab

Join other teens passionate about exploring careers in the medical field for a fun lab that will teach you the basics of surgery and how to suture a wound. Get the opportunity to learn valuable medical skills related to surgical professions. This class will also guide you through the steps nurses, doctors, and surgeons follow to clean, disinfect, and anesthetize wounds prior to surgery and suturing.

High School: Date/Time: Sat. Oct 17th 11am-1pm or Sat Nov 14th, 1pm-3pm
