

PATHWAYS TO MEDICINE

Pre-Med Workshop for Teens: Emergency Medicine

This unique pre-med lab is designed to introduce teens to the exciting world of emergency medicine. Each participant will learn the life-saving medical skills EMTs and Paramedics use to stabilize victims at the scene of serious accidents and inside ambulances. Taught by a Bay Area Fire Captain and veteran EMT/Paramedic, this workshop gives students an insider's perspective on what it takes to work day-to-day in the field of emergency medical services.

Participants have the option of taking a 1 day-2 hour intro to emergency medicine class, which covers basic emergency treatment skills, or our 1 day-4 hour emergency medicine intensive, which covers comprehensive emergency treatment skills, in-depth rescue techniques, and emergency simulation for extended practice and skills mastery.

Intro to EM: Date/Time: Sat Oct 24th, 10am-12pm **EM Intensive: Date/Time:** Sat. Nov 21st, 10am-2pm **Location:** Mills HS (*unaffiliated*); **Tuition:** Early Bird (by 10/16 or 11/6) Intro: \$125; Intensive: \$235; Regular Bird (after 10/16 or 11/6) Intro: \$145; Intensive: \$255 **Contact:** Shanda Manion ptminquiry@gmail.com; **Learn More:** www.pathwaystomedicine.com
